

Quick Facts & Frequently Asked Questions

Is the degree program a full-time or part-time program?

We provide flexibility so that you can pursue the degree part-time or full-time.

How long will it take me to complete the program?

You can pursue the degree full-time and finish in three semesters. Completion time for part-time students clearly depends on course-load commitments each semester. At the outside, taking just one course per semester would require slightly over three and half years to complete the degree.

Where are the courses held?

The official site of the program is the School of Business Graduate Business Learning Center in downtown Hartford, Connecticut USA.

How much does MSBAPM cost?

Currently the course fees are \$680 per credit hour (\$2040 per 3-credit course). At this rate, the total course fees for MSBAPM is \$22,440. The cost is the same for residents, non-residents, and international students.

Do I need work experience to join the program?

No. Work experience is a plus, but is not planned as an absolute requirement for admission.

I was a business major in my undergraduate studies, can I transfer in any of those credits?

No. You cannot transfer your undergraduate credits into the MSBAPM Program.

Can I waive any courses if I have had significant undergraduate coursework or work experience in a particular field of study?

Course waivers and substitutions are very rare, and are at the discretion of the MSBAPM Program Director.

Is MSBAPM program a STEM (Science, Technology, Engineering, and Mathematics) designated program?

Yes, MSBAPM is designated as one of the STEM eligible CIP codes. This means MSBAPM students may be eligible for a 17 month STEM extension of their OPT, as long as all other requirements are met.
